Dear Dr Vamsi

I suggest following correction /modifications in Document-1 of the attachments:

- 1) "Average of two internal examinations shall be considered" is to be added.
- 2) Resolution -1 does not speak whether the credits modified to 3 credits; What is the final outcome? Is it 3 credits or 4 credits? If it is resolved to 3 credits, you need to change the credit distribution accordingly in the CSE course structure.

Rest all things are fine.

I approve the minutes, course structure and detailed syllabi.

Dear Sir,

I have gone through the documents and believe the syllabus must focus on 2 aspects:

1. Introduction to NoSQL - MongoDB, Cassandra, Elasticsearch, DynamoDB, Hbase or others MUST be there.
2. React Native as a framework of web application development MUST also be explained, PHP is not in use much these days.

DOCUMENTS ARE VERIFIED.

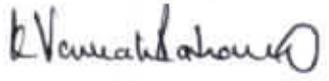

Thanks,
Arun
