3. Resolved that the Chairman of Civil Engineering is authorized to recommend names of eligible subject experts, from various colleges/university having a minimum of 5 years of full time service for consideration and appointment as paper setters/examiners for the courses.
4. It is resolved to request the respective departmental BOS members to accept a reduction of 20% syllabus for the two semesters of first year due to late starting of the semester and also due to the COVID-19.
5. It is resolved to accept the new grading system and class awarding as proposed by APSCHE.
6. Resolved to introduce Civil Engineering Subjects in First year First Semester and Second Semester.

Rest of the resolutions is followed as per the suggestions of committee of the Department BOS.

Suggestions for framing course structure and syllabus for II/IV, III/IV and IV/IV of 2020-21 admitted batch in the future BOS meetings:

1. The Course structure for the admitted batch 2020-21 and Syllabus for the coming academic years is provisionally discussed and shall be confirmed in the next BOS subsequently on par with AICTE, APSCHE and AU.
2. Suggested to follow equal weightage for PEC and OEC as per APSCHE.
3. Semester wise category course credit distribution is to be compiled in I/IV semester 1 and 2 as per APSCHE to avoid credit disturbance for students migrating in the middle of their engineering course.
4. The course structure in I/IV semester 1 and 2 is very much in compliance with A.U., avail the privileges of autonomy and modify course structure as per requirements for the next semesters.
5. Recommended to Introduce Minor degree Courses As per APSCHE.
6. MOOCs can be included as Professional Elective Course if possible in III/IV and IV/IV that can enhance the scope of employability.
7. It's better to relocate any of these two subjects: "Universal Human Values and Ethics" and "Environmental Science", from II/IV semester 2 as both are theoretical and non-core.

8. Mention open electives offered to Civil Engineering students in course structure. Out of three open elective courses offered to Civil Engineering students two subjects must be advanced subjects without requiring any prerequisites.
9. Recommended to incorporate advanced subjects in Professional Elective Courses (PEC) to facilitate the students with latest trends of technology and developments globally.
10. Recommended to introduce Skill Development course in all Semesters from Second year to enhance Students Job Oriented Courses.
11. The number of credits assigned for OEC is not in compliance with AICTE or APSCHE, to avoid this redistribute the credits of course structure. It's always advisable to assign higher number of credits for OEC as that's expected from autonomous colleges.
12. As per revised Bloom's taxonomy levels decided by AICTE, mention level for each CO.
13. There are important core subjects under electives, steps must be taken so that students study them without which their practical exposure will be affected. Suggested to ensure and rearrange electives accordingly.
14. Change the name of the subjects "Transportation engineering" to "Highway Engineering", and "Sanitary Engineering" to "Waste Water Engineering".
15. Ensure the subjects that are a part of Engineering Services Examination and/or GATE Examination are included in Civil Engineering curriculum.
