

BEACH CLEANING

Date : 07-01-2022

Time: 8.00am

Venue: R.K Beach

YI has initiated this Beach Cleaning program to maintain tidy marine surroundings and protect the aqua life and contributing towards the environment. Students were asked to volunteer for this activity. The activity had two objectives to achieve:

1. A Clean Beach
2. Changing Human behavior and creating beach Ethics.

At 7.00am everybody gathered near R.K beach and the group were divided according to the place allotted for the cleaning. Students were provided with two sets of uses and throw gloves, dustbin disposables cover, Sanitizer and other accessories for the activity. The group were on to the toes to clean the beach all the

dry waste was collected in different bags. The other groups started explaining to the common public that it is everyone's responsibility to keep the beach clean. while cleaning it was observed too much plastic was under the sand. Nearly 100 students took part actively in the campaign some waste was even removed through digging the sand. All the collected wastage was hand overed to GVMC cleaners. Students after completing the task were asked to share their experience with their classmates . It was a great response from the students.
